Fully compliant with the Energy-related Products Directive.

Suitable for domestic and small light commercial applications.

2 year warranty on ancillary components.⁽¹⁾

Provides instant hot water to multiple outlets, such as to a kitchen and bathroom.

Ideal for replacement installations for properties that require hot water supply only due to existing electric, convector or gas wall heating appliances.

AquaNova has a 28kW heat output and high flow rate of 11.8 litres per minute.

Simple installation and commissioning. All connections are easily accessible and the appliance features a built-in fly lead.

Continuous gas modulation and electronic temperature sensing gives accurate temperature control.

AquaNova can be flued horizontally or vertically using Vokèra's concentric Uni flue or twin flue systems.

Simple to service. No diaphragm or water section. This reduces maintenance requirements.

Electronic ignition eliminates the need for a constantly running fan or energy wasteful pilot light.

⁽¹⁾ Subject to registration and annual service.
