

# Programmable room thermostats

Controls are a simple way to maximise product efficiency and give the homeowner control over their heating system.

A programmable room thermostat can have different set temperatures for different times of the day, offering greater flexibility and a simple solution to boiler control.

## RC05 Programmable room thermostat and boiler control

Code: 405

\*(When using the RC05 with Compact HE and Compact SE you will also require the wired remote control interface. Code: 409)

For use with Linea-7, Compact SE\* & Compact HE\* it allows these boilers to be sited anywhere in the home, e.g. in a loft space. The RC05 can be fitted in an accessible location enabling direct control over the boiler.

The RC05 can also be used with the outside weather compensation control\* (Code: 2359259)

Facilitates remote reset.

Alarm codes and services icons displayed.

DHW and heating temperature regulation.

3-modes of operation.

Comprehensive remote diagnostics.

\*See Vokèra Intelligent Controls for further information on the outside weather compensation control.

## External RF programmable room thermostat

Code: 411

This wireless thermostat can be used with all Vokèra combination boilers and is ideal for retro fitting or to eliminate the need for wires.

Extremely easy to install

Simple thermostat & digital programmer to comply with Part L of the building regulations in one compact unit

Provides end user with maximum controllability and comfort with 7 day - 24 hour - 5 and 2 day programmes.

50m external range, 30m internal range

Receiver can be fitted inside boiler

# Clocks and programmers

These plug in clocks and programmers allow basic control over the heating and/or hot water requirements with the ability to set one time period only.

## Mynute HE 7 day digital programmer

Code: 514

\*When connected to a water cylinder.

This digital twin channel 7 day programmer for the Mynute HE suits all main heating and hot water\* needs.

Built-in ready made program to suit most customers needs

7 day battery back up

Backlit display

Simple single button to adjust British Summer Time.

Allows for the heating and hot water\* to be controlled independently of each other.

## Unica HE 24 hour mechanical clock

Code: 433

(\*This clock can also be used with Mynute HE where an existing control for the Hot Water tank is in operation)

This simple 24hr mechanical clock for the Unica HE (and Mynute 24m in Eire only) allows easy control over boiler heating and hot water.

Simple to install with pre-fabricated loom

Continuous, timed and off mode

Simple operation

Also available is a range of Intelligent controls with functions that enable you to have complete control over your heating and hot water timings. The installation and correct use of a Vokèra intelligent control can save up to 10% of a home's energy usage.

See the Vokèra advanced energy saving controls leaflet for further information.
