CUPBOARD FIT

A combination boiler provides heat for central heating and domestic hot water upon demand. You do not require feed and expansion tanks in your loft space or a water cylinder, therefore saving you space. The Vision is Vokèra's feature rich combi boiler and is the ideal boiler where space is an issue.

SEDBUK A rated and up to 90.1% efficient ⁽¹⁾, reducing running costs by up to 35% more than a conventional boiler, helping to safeguard the environment.

5 year parts and labour warranty.

Small dimensions enable the boiler to be sited almost anywhere in the home, including a kitchen cupboard.

Lightweight and versatile flue options, including rear flue option, enables the boiler to be installed easily, even in tight spaces.

Simple to use built in 7 day digital clock enables full control of heating and hot water times over a 7 day period, maximising comfort and saving energy.

Hot water survivor function provides back up should the hot water thermistor fails.

Can be converted to LPG with LPG Kit.

Flow rate of up to 12 l/min results in quick delivery of hot water.

Adding a Vokèra energy saving control to the Vokèra Vision combi can increase the boiler's efficiency even further. Ask your installer about the range of Vokèra energy saving controls.

Additional built in functions include: SARA function for automatic temperature control and improved efficiency, anti-cycling for longer lasting component performance and frost protection.

Easy to activate domestic hot water Pre Heat provides instant hot water.

Vokèra Vision is also available as a system boiler.

ENERGY SAVING CONTROLS AND ACCESSORIES

| Description | Code |
|-------------------------------|----------|
| RF Room thermostat control | TBC |
| OpenTherm wireless RF control | 611 |
| Weather compensation control | 2359259 |
| Control interface* | 29450143 |
| Pipe cover | 20012594 |
| Rear flue terminal | 29450133 |

*Control Interface required for use with OpenTherm and weather compensation controls. The addition of an energy saving control will over ride the built in digital control settings.
