3. The Service

Our engineer or representative will attend at the Property on the agreed date (or such other date as is arranged pursuant to clause 6) and will examine the Appliance and diagnose the fault.

Our engineers carry a comprehensive range of spare parts with them on each visit. If our engineer or representative is able to repair the fault immediately following diagnosis, they will do so. If our engineer or representative does not carry all parts necessary to repair the fault at the time of diagnosis, we will arrange a mutually convenient time for an engineer or representative to return to perform the repair.

Our engineer or representative will use all reasonable efforts to repair a diagnosed fault. However, we cannot guarantee to be able to repair every fault diagnosed. If an engineer or representative is unable to repair a fault, or if our engineer or representative diagnoses the necessary repair as being any repair of your central heating system (for boilers) and/or any repair required as a result of faulty installation of your appliance, which are not covered by the Service, they will inform you of the nature of the fault and will advise you of what they consider to be any reasonable courses of action available to you, which may include that it is beyond repair and requires replacement. In such circumstances, we will charge you an inspection fee and refund the balance.

If your Appliance is deemed beyond economic repair, we may, and entirely at our discretion, offer to supply you a quotation for a discounted replacement or equivalent replacement Appliance.

We will use all reasonable efforts to ensure that an engineer or representative visits the Property on the agreed date. However, occasionally, due to circumstances outside our control, we may be unable to get an engineer or representative to attend the Property on the agreed date. If this happens, we will contact you as soon as is reasonably practicable and agree an alternative date. If you are unable to allow our engineer or representative to access the Property on the agreed date, you must contact us as soon as is reasonably practicable (and in any such event before 12 noon on the day preceding such date) to arrange an alternative date for provision of the Service. If you inform us after this time, we reserve the right to retain a cancellation fee and refund the balance.

Once inside the Property, if your appliance has been installed in an area where it is inaccessible and our engineer or representative cannot gain clear and safe access to it, we reserve the right to retain an inspection fee and refund the balance.

Our engineer or representatives will exercise all reasonable care and skill in providing the Service.

Please note:

- a. Engineers will only attend to boiler products where it is considered by the engineer that the installation does not pose a risk to health and safety.
- b. A permanently fixed access ladder must service installations in lofts or attics. Adequate lighting and permanently fixed flooring must also be available.
- c. Cupboard installations must provide minimum working clearances as detailed in the installation instructions. Vokera will not accept responsibility for the removal of cupboards, kitchen units or trims in order to gain access for repairs.

If you wish to arrange for an engineer to attend to re-perform the Service and/or replace any defective parts pursuant to clauses 4.1 and/or 4.2 above, please contact us via Customer Care. Upon booking a time for such revisit, we will require a credit or debit card payment for the amount of the Fee. This will be refunded or partly refunded once our engineer or representative has re-performed the Service and/or replaced the defective part unless our engineer or representative reasonably believes that the new fault is not covered by the guarantees in clauses 4.1 and/or 4.2 above in which case the Fee will be payable. In such circumstances we will be entitled to retain any payment made by you, or if no payment has been made, to invoice you for the Fee.
